

# eagle-usb - konfiguracja

Położenie: /etc/eagle-usb/eagle-usb.conf

© Imagine Studio 2004, <http://mygentoo.of.pl>

```
<eaglectrl>
# Options are set with the following syntax:
#
# Name = Value
#
# where "Name" is the option name, and
# "Value" is the option value, specified
# in hexadecimal (without any prefix).
# Option names are case sensitive.
# Options that are commented out are specified
# with their default values.
#
# Other than VPI, VCI and Encapsulation,
# I really don't know what these options mean.
```

```
#POTS FOR EAGLE
OPTN0=80020066
# OPTN2=23700000
# OPTN3=00000000
